DEPARTMENT OF MANAGEMENT STUDIES

JAMIA MILLIA ISLAMIA

NEW DELHI

MBA Entrance Test Syllabus

Full Time International Business and Entrepreneurship and Family Business

Programme Code M55

Programme	MBA FT IB and EFB
Exam Duration	3 hours
Question Format	Multiple Choice Questions
Total Questions	170 MCQs

www.meersir.com

Entrance Test Overview

The JMI MBA M55 entrance test contains 170 multiple-choice questions to be completed in three hours. It evaluates English comprehension, quantitative and numerical ability, data analysis, reasoning, general intelligence, current affairs, and awareness of the economic and business environment.

No	Section	Primary Focus
1	English Comprehension	Verbal ability critical reasoning and reading comprehension
2	Quantitative Aptitude and Numerical Ability	Arithmetic algebra geometry statistics probability and basic calculus
3	Data Analysis and Data Sufficiency	Tables charts graphs comparisons trends and numerical conclusions

4	Reasoning and General Intelligence	Logical analytical deductive inductive and decision making skills
5	Current Affairs Economic and Business Environment	Current affairs economy business banking markets reforms and schemes

Section One English Comprehension

A Verbal Ability

This component focuses on grammar, usage and vocabulary.

- Pronouns
- Subject verb agreement
- Verbs and tenses
- Misplaced modifiers
- Parallel construction
- Quantifiers and comparatives
- Idiomatic expressions
- Vocabulary usage
- Synonyms and antonyms
- Sentence completion

B Critical Reasoning

This component tests analytical and evaluative thinking.

- Argument analysis
- Assumptions and inferences
- Logical conclusions
- Identifying flaws and strengths in arguments
- Short passage based reasoning questions

C Reading Comprehension

This component assesses comprehension, interpretation and application skills.

- One or more passages
- Factual and inferential questions
- Tone theme and central idea based questions
- Application of concepts to parallel situations

Section Two Quantitative Aptitude and Numerical Ability

This section evaluates understanding and application of basic mathematical concepts.

Arithmetic

Core numerical applications and commercial mathematics.

- Time speed and distance
- Ratio and proportion
- Profit and loss
- Simple and compound interest

Algebra and Functions

Algebraic expressions, equations, functions and their applications.

Inequalities

Numerical and algebraic inequalities and comparison of values.

Coordinate Geometry

Points, lines, distance, slope and basic coordinate relationships.

Sets

Set notation, types of sets, operations and elementary applications.

Elementary Calculus

Basic concepts of limits, differentiation and simple applications.

Statistics

Data description and interpretation through measures of central tendency and dispersion.

- Measures of central tendency
- Dispersion

Probability

Basic probability concepts and problem solving.

Section Three Data Analysis and Data Sufficiency

This section tests interpretation of data, assessment of available information and numerical decision-making skills.

Data Presentation Formats

Candidates should interpret data presented in common tabular and graphical formats.

- Tables
- Bar charts
- Line graphs
- Pie charts

Data Comparison and Trend Analysis

Comparison of values, identification of patterns, percentage change, ratios, growth and decline.

Logical Conclusions from Numerical Data

Drawing valid conclusions from the information provided and judging whether the available data are sufficient to answer a question.

Section Four Reasoning and General Intelligence

This section assesses logical thinking, structured analysis and problem-solving ability.

- Logical reasoning
- Analytical reasoning
- Deductive logic
- Inductive logic
- Decision making
- Inference based questions
- Pattern recognition and sequences

Section Five Current Affairs Economic and Business Environment

This section evaluates awareness of contemporary national, international, economic and business developments.

- National and international current affairs
- Indian economy
- Business and corporate developments
- Economic policies and reforms
- Banking finance and markets
- Government schemes related to the economy and business

Preparation Strategy

- Practise reading comprehension, grammar and critical reasoning every day to improve speed and accuracy.
- Revise arithmetic, algebra, statistics, probability and data interpretation through timed problem sets.
- Learn to distinguish between logical reasoning, data interpretation and data sufficiency question types.
- Track major national and international events along with Indian economic policy, banking, finance, markets and corporate developments.
- Attempt full-length mock tests under the three-hour time limit and review errors by section.
- Maintain concise revision sheets for formulas, vocabulary, current affairs and important business terminology.

Quick Revision Checklist

☐ Grammar usage and sentence completion	☐ Tables and bar charts
☐ Vocabulary synonyms and antonyms	☐ Line graphs and pie charts
☐ Critical reasoning and assumptions	☐ Data sufficiency and trends
☐ Reading comprehension	☐ Logical and analytical reasoning
☐ Arithmetic and commercial mathematics	☐ Deductive and inductive logic
☐ Algebra functions and inequalities	☐ Decision making and patterns
☐ Coordinate geometry sets and calculus	☐ National and international affairs
☐ Statistics and probability	☐ Economy business banking and markets
